With 40 associate degree programs and 30 certificate options, Crafton Hills can meet your needs whether you are interested in career preparation, in completing an associate's degree, or want to transfer to a four-year college or university. Regardless of the educational path you select, our outstanding faculty and staff are committed to your success.

A range of support services, including Admissions and Records, Financial Aid, Counseling, Extended Opportunities Programs and Services (EOP&S), Disabled Student Programs and Services (DSP&S) and our Health and Wellness Center are available to guide you through the college processes. The Transfer Center, Honors Institute, Tutoring Center, Student Success Program, and Library are all overseen by faculty and staff who want you to maximize your college opportunities.

For those seeking an even more comprehensive college experience, the Office of Student Life is responsible for student government and numerous clubs and organizations, helping you develop your leadership skills and providing opportunities to volunteer on campus and in the community. The campus is also home to a full range of chances to participate in or expand your knowledge of the arts, with dance, music, fine arts, publications, and theatre performances available throughout the year.

When you visit the campus for the first time, you will see much construction in progress. The San Bernardino Community College District is the beneficiary of a second taxpayer-supported bond, Measure M. The bond was passed to enhance the learning environments of Crafton Hills College and San Bernardino Valley College, and so there are new buildings going up, older buildings coming down, spaces being renovated and our infrastructure has been vastly improved. In 2010, we opened our new Library and Learning Resource Center and the Aquatic Center. Our next projects include a new Student Center and a new Science building, as well as additional renovations. Our state of the art surroundings now complement the outstanding instruction provided to our students.

Each semester, more than 6,200 students embark on creating their futures here at the College and we are dedicated helping them to achieve their dreams. Please consider joining us.

Sincerely,

Gloria M. Harrison

General Information - About the College

Crafton Hills College (CHC) is one of 112 colleges in the California Community College system, the largest system of higher education in the world. Since its opening in 1972, learners of all ages, interests and backgrounds have passed through the doors of CHC, taking advantage of this first step to higher learning. As new businesses and industries settle in this region, CHC continues to increase in importance as a source for a college education and career training. Crafton Hills currently serves approximately 6,200 students and offers both day and evening classes.

Crafton Hills College is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, 10 Commercial Boulevard, Suite 204, Novato, CA 94949, (415) 506-0234, an institutional accrediting body recognized by the Council for Higher Education Accreditation and the U.S. Department of Education.

Crafton Hills College has made every reasonable effort to ensure that the information provided in this general Catalog is accurate and current. However, this document should not be considered an irrevocable contract between the student and Crafton Hills College. The content is subject to change. The College reserves the right to make additions, revisions, or deletions as may be necessary due to changes in governmental regulations, district policy, or college policy, procedures, or curriculum. The College will make every reasonable effort to inform students of significant changes that occur after publication of this document.

Located in southern California, on rolling hills above the Yucaipa Valley, and surrounded by an undisturbed natural environment, Crafton Hills College offers majors in the liberal arts and sciences, career and technical studies. With its imaginative architecture, manicured grounds and spectacular surroundings, the atmosphere of the college is one of serenity — right for reflection, growth and learning.

What sets the campus apart from many others is that, in addition to quality instruction, many of our professors are experts in their respective fields outside the classroom. The small size of the college allows for much more one-on-one communication between instructors and students. CHC instructors are noted for being accessible and caring about the students as individuals. Whether you're a new student just getting started in college or you're returning to college after having been out of school for a while, it is never too late to go to college. At CHC, there is still that personal touch.

There are many student services available to help you achieve your higher education goals. You can find information and a listing of student services in this catalog and in the class schedule.

The Child Development Center and the Child Development Program function collaboratively to provide the best education possible for preschool-aged children and our child development students.

In addition to student-centered classes and a supportive counseling transfer and career guidance staff, CHC provides a variety of cultural, social and recreational opportunities. The Art, Music, and Theatre Arts Departments are student intensive, offering two years of experience-based education that allows our students to participate in art exhibits, concerts, and theatre productions throughout the year. Also, students have extracurricular opportunities to explore their interests through clubs, student government and educational field trips to various locations. For recreational activities, the college's Health and Physical Education Department oversees outstanding facilities including a gymnasium, weight room, swimming pool, and tennis courts.

Above all, CHC is a place for learning and personal growth. It has established a reputation for quality and a willingness to respond quickly and reasonably to community needs. CHC operates on the semester system. Fall semester begins in August, spring term starts in January, and summer session starts in June.

CAMPUS PURPOSE

The purpose of Crafton Hills College is to facilitate students' learning so they can attain realistic goals commensurate with their needs and abilities. The primary means for achieving this goal is the educational program of the college; all other functions of the college are justified insofar as they support learning. While the result of some learning is intangible, most learning is indicated by a change in the attitude and behavior of the learner. Some changes represent new departures for the student; others are simply further refinements and developments of skills, viewpoints and knowledge. The college provides a variety of courses and programs designed to reach the institution's basic goal. As students pursue their programs of study, they should strive toward an understanding of their scientific and cultural heritage; the ability to define and solve problems on the basis of relevant facts and reasonable alternatives; the identification of a preferred pattern of living and a means of achieving it; occupational and professional proficiency; mental and physical health; the ability to interact effectively with other people intellectually, socially, and physically;

the acceptance of responsibility; and an awareness of the usefulness and desirability of further learning. In pursuit of the goals stated above, the college offers course work and assistance to students in the following broad areas:

1. Lower division courses for transfer to senior colleges and universities, applicable to the baccalaureate degree;
2. Occupational programs for entry into specific vocations and further training for increased occupational effectiveness while pursuing a vocation;
3. General education that provides a fundamental learning foundation and stimulates intellectual curiosity;
4. Continuing education for citizens in the community who may desire further preparation in general education or in a vocational field;
5. Programs in basic skills for increased effectiveness in pursuing the basic objectives of the college;
6. Advising and counseling for educational, occupational, and personal planning.

EDUCATIONAL MASTER PLAN

The Educational Master Plan provides the college with an integrated framework for achieving long-term goals in support of student learning.

BACKGROUND

Crafton Hills College is one of two public community colleges serving the San Bernardino Community College District. The other is San Bernardino Valley College. Both are tax-supported, coeducational institutions governed by a locally elected board of trustees acting through a district chancellor and the president of each college.

In the fall of 1972, classes were held for the first time at Crafton Hills College. The campus buildings and grounds provide an environment essential to support a comprehensive community college. The areas from which the college generally attracts students include Yucaipa, Redlands, Highland, Loma Linda, San Bernardino, Rim of the World, Colton, Bloomington, Rialto, and Bear Valley. However, students also come from all over California, out-of-state, and foreign countries.

Some students come to the college directly from high school and pursue full-time study in transfer-preparation or career-technical programs. Others study part time to prepare for return to work or to improve their chances for advancement. Some arrive with superior academic backgrounds, some in need of considerable remedial assistance. The average age of CHC students is twenty-five. More than half the students are females. Some students stay to complete a program; others prepare for eventual transfer to four-year colleges and universities or to directly enter the workplace. Students choose Crafton Hills College because of its setting, its dedicated faculty, its challenging and engaging curriculum, and its variety of educational opportunities.

CRAFTON HILLS COLLEGE FOUNDATION

In an effort to extend educational opportunities to CHC students, Crafton Hills College established the CHC Foundation during the same year the college opened in 1972. The CHC Foundation is a nonprofit corporation devoted exclusively to raising funds for student scholarships, grants and special projects. Philanthropy has been important to CHC from the very creation of the institution. The college began as a gift of property from brothers Ruben and Lester Finkelstein. For more information about the CHC Foundation, please call (909) 389-3260.

ALUMNI ASSOCIATION

Crafton Hills College invites you to continue your affiliation with the college by joining the Alumni and Friends. Working with the Crafton Hills College Foundation, the Alumni and Friends is committed to helping Crafton Hills College students obtain their educational objectives. For more information about the CHC Alumni and Friends, the CHC Foundation, and fund raising events, please call the CHC Resource Development Office at (909) 389-3260.

CALIFORNIA RESIDENCY INFORMATION

This section of the catalog provides a general summary of the principal rules about residency. For the detailed rules used by admission officers for residency determination, reference should be made to regulations of the Board of Governors of the California Community Colleges in Sub-Chapter 1 commencing with Section 54000 of Division 6 of Chapter V, of Title 5 of the California Administrative Code, and the regulations and guidelines available at the Admissions & Records Office. These regulations are subject to change without notice by the state Legislature.

Determination of Residence

- A. Adults — every person who is married or who is 18 years of age or older on the residence determination date may determine his or her own residence.
- B. Minors — those persons under 18 years of age may establish residence in accordance with the following:
 1. Married minors may establish their own residence.
 2. If the parents are separated permanently, the residence of the minor is the residence of the parent with whom he/she lives.
 3. If both parents are deceased, and there is no court-appointed guardian, the minor may establish his/her own residence.
 4. A student who remains in the state after his/her parents, who had legal residence in California, have established residence elsewhere, shall be entitled to retain resident classification until he/she has attained the age of majority and has resided in the state the minimum time necessary to become a resident so long as continuous attendance is maintained at the institution.
 5. A student may combine his/her time as a resident minor with his/her time as a resident adult to establish the one year necessary for California resident classification.

Becoming A Resident

Intent to become a resident may be determined by complying with at least three of the conditions listed in the following section. Physical presence within the state solely for educational purposes does not constitute establishing California residence, regardless of the length of that presence. The one-year residence period which a person must meet to be classified as a resident does not begin until the person is both present in California and has manifested clear intent to become a California resident.

(Education Code: 54024)

Required Documents For Residence Determination

The following factors are considered in determining California residency (a minimum of 3 must be provided):

Evaluation of Transcripts from International Institutions:

Foreign institutions are usually chartered and authorized by their national governments through a ministry of education. Although this provides for standardization within a country, it does not produce useful information about comparability from one country to another. As a result, all students who have attended a foreign institution must:

1. Have their transcripts evaluated by a member company of the Association of International Credentials Evaluators (AICE).
2. The student must have an official copy of the evaluation sent to the Crafton Hills College Admissions and Records Office.

The following organizations can assist institutions by distributing general or specific guidelines on admission and placement of foreign students. Equivalency or placement recommendations are to be evaluated in the terms of the programs and policies of the individual receiving institution.

ADMISSION OF HIGH SCHOOL STUDENTS

Crafton Hills College may admit high school students who have completed the tenth grade who are capable of benefiting from advanced scholastic courses (i.e., college level), and are seeking educational opportunities not otherwise available to them.

To be eligible, students must have:

- the recommendation of the high school principal
- the consent of a parent or guardian
- demonstrated adequate preparation in the discipline to be studied
- a GPA of 2.5 or higher

Students who meet the eligibility requirements, must submit (prior to the deadline) the following:

- Completed and signed CHC application
- Completed and signed High School Concurrent Enrollment Request form
- Completed Consent for Medical Treatment form
- Official high school transcripts in a sealed envelope

All applications will be reviewed by the Dean of Student Services and Student Development. Upon approval, students may register for the approved classes beginning at open registration. Course changes or enrollment in a course without prior approval will result in an administrative withdrawal without refund.

Crafton Hills College may restrict the admission and enrollment of high school students during any session based on age, completion of a specific grade level, regulation or demonstrated eligibility for instruction based on the college's assessment methods and procedures. All high school students enrolling in college courses must have a release of liability and the maturity to function effectively on a college campus.

Admission of Students below Grade 11

In extraordinary cases, where a student who has not completed the tenth grade demonstrates superior ability and capacity to succeed in college level work in a particular discipline, the college may consider admission of that student. Such consideration will be on a course-by-course basis and will be allowed only through the add/drop process, after open registration has been completed. Students below grade 11 wishing to enroll in courses must meet all of the requirements identified in the section above as well as any pre-requisites or departmental recommendations established for the course(s) in which they wish to enroll, as demonstrated by completion of the college assessment process.

Students in this category will be bound, as are all other students, by the syllabus of the course. Course content is non-negotiable. Moreover, parents are not permitted to attend classes with their children unless they are registered for the course. These students and their parents must complete an orientation process for each course conducted by the Counseling Department. The instructor of the course will have the final determination of whether any student below grade 11 will be allowed to enroll in his or her class.

SPECIAL PROGRAMS TO SUPPORT STUDENT SUCCESS

FINANCIAL AID GRANTS AND WORK STUDY

The Financial Aid Office helps students seeking financial aid to pay for the costs of attending Crafton Hills College. Money is provided to cover the cost of enrollment fees, books, transportation and partial living expenses. Students may be working and still qualify for financial assistance. The basic type of financial aid: grants and self help (such as work study). Grants are awarded on the basis of financial need and do not require repayment. Work study offers students the opportunity to earn a portion of their college expenses through part-time employment during the school year.

The Free Application for Federal Student Aid (FAFSA) must be used when applying for financial aid. Applying on time is critical. Be sure to contact the Financial Aid Office regarding deadlines. The completed FAFSA should be done online at www.fafsa.gov after January 1, but no later than the last day of the previous spring semester, in order to ensure funds will be available for the beginning of the fall semester in August. Our school code is 009272. After submitting your FAFSA on-line, you must come into the financial aid office approximately 4 days later to open your file in the financial aid office regardless if you are a new student or a returning student, everyone must open a new file each year. It is important, however, that all requested documentation be returned as soon as possible. Financial aid awards are made only after a student's file is complete. On-time applicants (those who have complete applications by June 01, 2011 and who have returned all requested materials) can expect to receive a financial aid award letter by July. Students receiving financial aid are expected to make satisfactory academic progress toward their educational goal. This includes completing all classes for which aid is received. The Financial Aid staff is here to assist you. Students often find applying for financial aid a difficult and confusing process. Those needing help or advice are encouraged to go to the Financial Aid Office. For information call (909) 389-3240.

TYPES OF FINANCIAL AID

1. BOARD OF GOVERNORS ENROLLMENT FEE WAIVER

This waiver is available to California residents to cover resident enrollment fees. Students must demonstrate financial need by completing the Free Application for Federal Student Aid (FAFSA) or the Board of Governors Enrollment Fee Waiver Application. The maximum waiver is equal to the community college enrollment fees.

All students who receive BOG will still have a small balance to be paid with Admissions and Records.

Should you need to apply for a refund, please check the class schedule for Important Dates for Deadlines.

2. CAL GRANTS

The California Student Aid Commission offers three grants for which Crafton Hills College students are eligible to apply. The deadline to apply for these programs for the following year is March 2 and September 2. Students interested in this program must meet the published deadline; no exceptions are made. To apply students must complete the Free Application for Federal Student Aid (FAFSA) online at www.FAFSA.gov

3. FEDERAL PELL GRANT PROGRAM

Crafton Hills College participates in the Federal Pell Grant Program, which provides federal grants of approximately \$5,750 per year for students, depending upon the financial ability of the family and/or individual to contribute to the cost of higher education (as determined by a federal methodology). Applicants must be US citizens or eligible non-citizens and complete the Free Application for Federal Student Aid (FAFSA) and other required supplemental materials. All application materials are available online. Students may apply for a Federal Pell Grant any time after January 1, 2011 until May 24, 2012 and have a completed file.

4. FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (SEOG)

Crafton Hills College participates in the Federal Supplemental Educational Opportunity Grant program, which provides federal grants to a maximum of \$2,000 per year for students who qualify. The average grant at Crafton Hills College is \$600. Applicants must be US citizens or eligible non-citizens and complete the Free Application for Federal Student Aid (FAFSA) and other required supplemental materials. All applications materials are available in the Financial Aid Office.

5. FEDERAL WORK STUDY

Students who are interested in the Federal Work Study (FWS) program are required to complete a Free Application for Federal Student Aid (FAFSA) and other supplemental materials. All application materials are available online.

STANDARDS OF SATISFACTORY ACADEMIC PROGRESS TO QUALIFY FOR FINANCIAL AID

Federal and state regulations require all colleges to establish a policy to determine whether a student is making satisfactory academic progress toward his or her educational goal (A.A./S, Certificate or Transfer). This policy must apply to all students whether or not they were recipients of financial aid previously at Crafton Hills College or at any other college.

All students receiving Title IV aid required to meet the following standards.

- Be enrolled in an eligible program for the purpose of completing an AA/AS Degree, transfer requirements, or certificate program. It is the student's responsibility to enroll in courses that lead toward his or her educational goal.
- Maintain a minimum cumulative 2.0 Grade Point Average (GPA). Grades for a maximum of 30 units of remedial coursework will not be used in the calculation of the cum GPA.
- Complete at least 2/3 or 67% of all units attempted successfully.
- Complete their educational goal within 150% of the published unit requirement.

Frequency of Evaluation

Students will be evaluated at least once per semester, to determine if they are meeting the standards listed above. Students in non-term programs will be evaluated at the completion of half of their coursework each academic year.

Grades

Grades of W, NP, I, IP, RD, RP and F (if unearned) will not count as units completed, but will count as units attempted. Federal financial aid is not available for credit-by-examination courses. The Financial Aid Office will assume that students who receive F's in all of their classes actually withdrew from those classes and therefore the units for those classes will not be considered as units "completed". Students will not be paid retroactively for those units. If the student did, in fact, complete these classes and "earned" F's, the student is required to have their instructors certify this.

Course Repetition

Course repetition within college policy as stated in the Crafton Hills College General Catalog will be allowed; however the credits from all attempted units, including repeated classes must be included when calculating the maximum time frame, (*See Maximum Time Frame for Completing Educational Goal Section below*)

Financial Aid Warning

Students who do not meet the units completed standard or the GPA standard will be placed automatically on Financial Aid Warning for the subsequent semester. When placed on Financial Aid Warning, student coursework is monitored for one semester. During the warning semester, the student is eligible to receive financial aid. At the end of the semester, progress will be reviewed to determine if the student now

meets the standards (2.00 cum GPA and 67% completion of all units attempted). If the student satisfies both successful conditions outlined above, they will be removed from *Financial Aid Warning*.

Unsatisfactory Progress Dismissal

Students who fail to satisfactorily complete a period of warning will be placed on *Unsatisfactory Progress Dismissal*. Students are **not** eligible to receive financial aid (except the BOG Fee Waiver) while on *Unsatisfactory Progress Dismissal*. In order to be considered for reinstatement, students are required to bring their cum GPA and percentage of units completed up to meet the standards **without** the assistance of federal financial aid.

Appeal Process

You have the right to appeal a financial aid SAP or unit cap termination by presenting a written appeal with a personal statement and documentation of mitigating circumstances. **Petition for reinstatement** forms are available in the Financial Aid office.

The SAP Appeals Committee/Financial Aid Director evaluates all SAP appeals considering such factors as your personal statement, your academic history, your documented extenuating circumstances and your ability to achieve academic progress in the future.

Extenuating circumstances do not include the following:

- Applying for an additional degree or certificate
- Changed your mind about your current degree plan
- Did not like the instructor; had conflicts with the instructor; did not like the course
- Death of anyone other than immediate family member
- Illness of anyone other than you or your immediate family member
- You were young and unaware of the importance of an education

Maximum Time Frame for Completing Education Goal

All students receiving financial aid will be expected to complete a degree or certificate program within 150% of the published unit requirements for the chosen program of study. For example, students are allowed a maximum of 72 attempted degree -applicable units within which to complete an Associates Degree or requirements to transfer (12 units required x 6 semesters = 72). Students enrolled in programs with less than or more than the standard 60 unit requirement will be reviewed on a case-by-case basis. Thirty (30) units of remedial coursework will not be counted in the 72 unit maximum time frame. The maximum time frame is based upon units attempted. The use of a unit standard to measure maximum time frame permits variations in a student's

enrollment status to be taken into consideration within the academic year increment.

Maximum Time Frame Dismissal

Students will be placed on *Maximum Time Frame Dismissal* once they reach or exceed 72 attempted units (A.A./A.S.) and transfer students). Students in certificate or non-term programs will be placed on *Maximum Time Frame Dismissal* once their attempted unit total reaches 150% of the published time frame. If a student wishes to continue to receive federal financial aid, he or she must submit an appeal to the Financial Aid Office. The Director of Financial Aid and/or the Financial Aid Appeals Committee will review these appeals. The student will be notified by mail of the outcome.

Appeal Process

Students placed on *Maximum Time Frame Dismissal* or *Unsatisfactory Progress Dismissal* may appeal for reinstatement of their eligibility by completing an SAP Appeal Form. **Appeals must include dates, details and documentation** of any extenuating circumstances, such as proof of serious illness or injury. Note, students placed on *Maximum Time Frame Dismissal*, must meet with an academic counselor and submit an updated Education Plan.

The appeal will be reviewed by the Financial Aid Director and/or an Appeals Committee to determine if the student's circumstances warrant full reinstatement, probationary reinstatement, or continued dismissal. For additional information regarding these standards, please contact the Financial Aid Office located in the CL- Building or call 909-389-3223.

Crafton Hills College is approved for the training of veterans and eligible dependents of deceased or disabled veterans. After completing an application for admission, a veteran should complete all necessary forms in the Admissions and Records Office.

Veterans are required to choose a major and enroll in classes required for that major. Failure to take proper classes may lead to reduction or termination of benefits. Official transcripts from all previous schools and colleges must be submitted to Admissions and Records Office for evaluation before the end of the student's first term of attendance.

The unit requirements (FALL and SPRING) for Chapter 30 (Montgomery GI Bill), for Chapter 34 (Veterans, 1966 Federal Veterans Education Act), or Chapter 35 (Dependents' Educational Assistance), for Chapter 1606 (Montgomery GI Bill - Selected Reserve; Educational Assistance), for Chapter 33 (Post 9/11 GI Bill) and Chapter 1607 (REAP) are:

Full-time..... 12 units or more

3/4 time..... 9-11 1/2 units

1/2 time..... 6-8 1/2 units

1/4 time..... 3-5 1/2 units

Summer Session: Full-time is considered five units in a seven-week course or six units in an eight-week course.

Veterans taking short-term courses will be paid only for the actual enrollment period. If the veteran receives an "F" or "W" grade for non-attendance, he or she must repay the VA from the date he or she stopped attending the class. In order to receive benefits, veterans and dependents must submit a Request for VA Benefits Form to the Admissions and Records Office at the beginning of each semester. It is the veteran's responsibility to promptly notify the Admissions and Records Office of any change of program.

Veterans will be awarded seven units of credit for health and physical education (only for honorable discharge) by submitting a copy of their DD214 member 4 to the Admissions and Records Office.

Veterans on academic and/or progress probation for two consecutive semesters may not be certified for the following semester. Please see the VA counselor for details.

STEP 2: ASSESSMENT

Assessment Process

Every new student is required to participate in the assessment process. This process is designed to assist students in choosing the correct classes. The assessment process is required to determine placement in English and mathematics classes at Crafton Hills College. The assessment instrument is a multiple-choice instrument covering reading comprehension, sentence skills, arithmetic and elementary algebra.

No appointments are necessary to participate in assessment. Assessment is provided on a walk-in basis.

Students are strongly encouraged to access the review materials that are available in our Assessment Center or on our campus website at www.craftonhills.edu. Click on "Students, New", then "Assessment".

Plan on two hours to complete the assessment process. For questions you may contact the assessment center by email, assessment@craftonhills.edu or at (909) 389-3361.

Assessment Exemption

New students may obtain an assessment exemption if they fall into one of the following categories:

1. Completed an Associate of Arts or Sciences degree or higher. (Provide Transcript)
2. Completed 30 or more semester units of college work at another college or university. (Provide Transcript)
3. Completed prerequisite courses with a grade of "C" or better. If you have not completed prerequisite courses in both mathematics and English, you must take the assessment in the area not met. (Provide Transcript)
4. Scored 3 or higher on the Advanced Placement Test (College Board) in English and/or mathematics. (Provide documentation)
5. You have participated in the CSU EAP Process at your high school and have been determined "ready for college" level coursework or determined provisionally prepared

and completed the appropriate course during your senior year. This exemption expires on year after your senior year. (Provide EAP exam results and if provisionally approved a copy of your high school transcript.)

6. Enrolling in courses at Crafton Hills College only to maintain certificate or license requirements.
7. Enrolling in only 6 units or less of courses for personal enrichment (e.g., PE, Music, Art) up to a cumulative total of 12 units (once you have reached 12 units of course work you will be required to participate in the assessment process).
8. Taken a placement exam at one of the other San Bernardino or Riverside County community colleges or taken the Accuplacer Assessment Test at another college in the last two years and provide scores and placement recommendations from the other college.

If any of the above criteria apply to you, visit the Counseling Center, SSB-201, to obtain an exemption. You are responsible for supplying the documentation and for completing the exemption process at the Counseling Center before you will be eligible to register.

For more information, visit the Counseling Center SSB-201 or call (909) 389-3366 or visit www.craftonhills.edu/assessment

Appeals

The college provides an appeals process. Consult a counselor for review of the following concerns:

1. Review of placement decisions.
2. Waiver and challenge of prerequisites.
3. Complaint of unlawful discrimination. If a student feels that assessment, orientation counseling, prerequisites, or any other matriculation procedures is being applied in an unfair manner, he or she should consult with the Vice-President of Student Services or designee.

STEP 3: ORIENTATION

Crafton Hills College New Student Orientation

To make new students more familiar with the college campus, policies, and procedures, Crafton Hills College offers a three-hour Orientation to all new students. During the first part of the Orientation, CHC faculty and staff provide a 60-minute interactive introduction to college, including understanding the different requirements for transfer, Associate degrees, and certificate programs; reading the Schedule of Classes; and accessing available support services and programs.

Students are then taken on a 45-minute tour of campus, wherein the major campus buildings are identified and services located. Students hear from representatives of

certain student services, such as the Admissions and Records office, the Office of Student Life, Financial Aid, the Health and Wellness Center, and the Learning Resource Center.

The tour ends in the college Library for the third part of Orientation, consisting of an introduction to logging onto the CHC website, changing passwords, accessing campus email, and registering for classes. Students then meet individually with a counselor to develop a first-semester student education plan based upon assessment results and their goals at Crafton.

For more information, visit the Counseling Center SSB-201 or call (909) 389-3366 or visit www.craftonhills.edu/orientation

STEP 4: SEE A COUNSELOR

Every new student is strongly encouraged to develop a Student Educational Plan (SEP) with a counseling faculty member before enrolling in classes. The SEP provides a plan to reach your educational or career goals. Meet with a counseling faculty member during the orientation session who will assist in developing a first semester SEP. Financial Aid and EOP&S students are required to have a current SEP on file. After the semester has started students are encouraged to return to meet with a Counselor to develop a multi-semester SEP.

The Counseling Office is located in SSB-201. Park in Lot B or C. A decal is required and can be purchased in Lot D for \$1.

For more information, visit the Counseling Center SSB-201 or call (909) 389-3366 or visit www.craftonhills.edu/counseling

STEP 5: REGISTER

Select your Classes

Take the time to look through the list of course offerings in the schedule, online at www.craftonhills.edu. Use your Student Education Plan (SEP) and assessment results as a guide to help you choose courses as you make your selections. Think about the hours in the day you have available to take classes, and make sure that the classes you have chosen are not held at conflicting times. Stop by the Counseling Center, SSB-201, to see a student success advisor if you would like to help selecting your classes. Remember to select some alternate courses as backups, in case your first-choice classes are already full by the time you register.

PREREQUISITES, COREQUISITES AND DEPARTMENTAL RECOMMENDATIONS

When registering for classes, students are required to adhere to enrollment policies that relate to prerequisites, corequisites and departmental recommendations.

1. A **prerequisite** means a condition of enrollment students are required to meet in order to demonstrate readiness for enrollment in a course or educational program. Students registered in a class without having completed the prerequisite(s) may be dropped from the class. Prerequisite courses completed with a grade of D or F indicate unsatisfactory performance in those courses and do not satisfy the prerequisite.
2. A **corequisite** means a condition of enrollment consisting of a course a student is required to take simultaneously in order to enroll in another course.
3. A **departmental recommendation** means a condition of enrollment a student is advised, but not required, to meet before or in conjunction with enrollment in a course or education program.

Students will not be allowed to enroll in a prerequisite course taken after the higher level course, except by Petition for Academic Exceptions.

Prerequisite/Corequisite Challenge Process

Any prerequisite or corequisite may be challenged by a student on one or more of the grounds listed below. The student shall bear the initial burden of showing grounds exist for the challenge. Challenges shall be resolved in a timely manner and, if the challenge is upheld, the student shall be permitted to enroll in the course in question. Grounds for challenge are:

1. The prerequisite or corequisite has not been established in accordance with the district's process for establishing prerequisites and corequisites;
2. The prerequisite or corequisite is in violation of Title 5 of the Education Code;
3. The prerequisite or corequisite is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner;
4. The student has the knowledge or ability to succeed in the course or program despite not meeting the prerequisite or corequisite;
5. The student will be subject to undue delay in attaining the goal of his or her Student Educational Plan because the prerequisite or corequisite course has not been made reasonably available;
6. The student seeks to enroll and has not been allowed to enroll due to a limitation on enrollment established for a course that involves intercollegiate competition or public performance, or enrollment in one or more of the courses has been limited to a cohort of students. The student shall be allowed to enroll in such a course if otherwise he or she would be delayed by a semester or more in attaining the degree or certificate specified in his or her Student Educational Plan;
7. The student seeks to enroll in a course which has a prerequisite established to protect students' health and safety, and the student demonstrates that he or she does not pose a threat to himself or herself or others.

For more information, visit the Counseling Center SSB-201 or call (909) 389-3366.

Register at www.craftonhills.edu

The first few weeks of Web registration are open to students according to a priority system. You may register by Web on your assigned priority day or any registration day thereafter. You cannot register before your assigned day. Since classes are filled on a first-come, first-served basis, we recommend that you register as soon as your priority is available.

Pay your Fees

As a publicly supported community college, Crafton Hills College provides quality education at a low cost. All fees are subject to change. Consult the schedule of classes and the website for the current listing of fees and other costs.

Below lists a sample of various types of fees:

- Enrollment Fee
- Non-Resident Tuition Fee
- Non-Resident Capital Outlay Fee

REGISTRATION & ENROLLMENT

OPEN CLASSES

Students who have been officially admitted to Crafton Hills College are eligible to enroll in any class for which they meet either the prerequisites or corequisites or both. Of course, only so many persons can fit into classrooms and laboratories, so class sizes are limited and enrollment is on a priority basis.

ADDING COURSES

Students may add courses during the first two weeks for a full-term course, or the first 10% of a short-term course. After the add period concludes, students may add a course only with the instructor's permission and through a petition approved by the Dean of Student Services and Student Development or designee. (SBCCD Administrative Procedure 5080)

DROPPING COURSES

Students may drop courses during the first four weeks or 30% of a term, whichever is less, and there shall be no notation on their permanent academic record.

Students may withdrawal from courses between the end of the fourth week and the last day of the fourteenth week or 75% of a term, whichever is less, and a "W" shall be a recorded on their permanent academic record. Failure of the student to officially withdraw from a registered course may result in responsibility for enrollment fee payments for the class and/or receipt of an "F" grade. (SBCCD Administrative Procedure 4233, 5080)

Withdrawal from a course(s) may be approved in extenuating circumstances after the last day of the 14th week or 75% of a term through a petition approved by the Dean of Student Services and Student Development or designee. Extenuating circumstances are defined as verified cases of illness, accident, unforeseen job shift change, job assignment outside the attendance area, extreme weather conditions, or other circumstances beyond the control of the student. (SBCCD Administrative Procedure 4233)

INSTRUCTION INITIATED DROPS

Instructors shall drop students due to inactive enrollment no later than the end of the last business day before the census day for all students who have been identified as no shows, or students who are no longer attending the course.

An instructor may drop a student from a class for excessive absences. Reinstatement is the prerogative of the instructor but must occur prior to the last day to add. Students who are

dropped by instructors during the first four weeks or 30% of a term, whichever is less, shall have no notation made to the permanent academic record. Students who are withdrawn by instructors between the end of the fourth week and the last day of the fourteenth week or 75% of a term, whichever is less, shall have a "W" posted to the permanent academic record. (SBCCD Administrative Procedure 4233, 5080)

MULTIPLE AND OVERLAPPING ENROLLMENTS

A student may not enroll in two or more sections of the same credit course during the same term unless the length of the course provides that student is not enrolled in more than once section at any given time. Students needing additional instruction may be referred for tutoring.

A student may not enroll in two or more courses where the meeting time for the courses overlap unless:

- The student provides a valid justification other than scheduling convenience of the need for an overlapping schedule;
- The Vice President of Instruction and the instructor of record approve the schedule;
- The student makes up the overlapping hours at some other time during the same week under the supervision of the instructor of the course
- The college maintains a record of the make-up time completed by the student. (SBCCD Administrative Procedure 4226)
- An Approval for Overlapping classes form may be obtained from the Office of Instruction (LADM-300).

ATTENDANCE

It is the student's responsibility to attend classes regularly and on time. Students who do not attend the first class session may be dropped from the class at the discretion of the instructor. However, it is each student's responsibility to officially drop any class he/she does not attend or stops attending. Students should not rely on instructors to drop or withdraw them. Failure to officially withdraw from a class by the withdrawal deadline may result in the assignment of an "F" (Failing) grade.

CANCELLED COURSES

The college reserves the right to cancel any class that does not meet the minimum size requirements established by the District. Students will automatically be mailed a refund of the enrollment fees for any class cancelled by the college.

REFUND POLICY

Class Cancelled by the College

If a class is cancelled by the college, enrollment and/or nonresident tuition fees will be refunded in their entirety. If that cancellation results in a student's withdrawal from the college, the mandatory fees will also be refunded.

Withdrawal from the College

If a student withdraws from the college during the first two weeks of a full-term class or during the first 10% of a short-term class, enrollment fees and/or non resident fees will be refunded.

In order to be eligible for a refund of parking, health, accident insurance, associated student (AS) card, student center and the student representation fees, a student must withdraw from the college prior to the first day of the term for a full-term class or prior to the first day of instruction for a short-term class.

Unit Reduction

If a change of program within the first two weeks of a full-term class or during the first 10% of a short-term class results in a reduction in the number of units taken, the enrollment fee or non-resident fee will be refunded at the per-unit cost of the reduction.

A student who withdraws from a class or the college after the second week of instruction for a full-term class or the first 10% of a short-term class is not eligible for any refund.

Students who are dropped by instructors shall be eligible for a refund or credit pursuant to the District's refund policy.

Refund Processing Fee

A charge of \$10 will be collected for each refund transaction not to exceed \$10 per student per semester. No charge applies for cancelled classes or over payments. (SBCCD Administrative Procedure 5033)

ACADEMIC POLICIES AND STANDARDS

Grading System

The evaluative and non-evaluative grading symbols and their meanings are as follows:

A	Excellent	4
B	Good	3
C	Satisfactory	2
D	Less than satisfactory	1
F	Failing	0
P	Pass (at least Satisfactory)	Units awarded as P are not counted in GPA. See Pass/No Pass.
NP	No Pass	Units awarded as NP are not counted in GPA. See Pass/No Pass.

W	Withdrawal	Student or instructor, initiated. See "Withdrawal".
MW	Military Withdrawal	See "Military Withdrawal."
I	Incomplete	Instructor initiated. See "Incomplete."
IP	In Progress	Assigned for classes in progress or those which continue across semester and/or intersessions dates.
RD	Report Delayed	Assigned by the Admissions & Records Office only when grades are not recorded but the term is completed. (T5-55023)

See page 26 for tips on calculating your grade point average.

How to Calculate Your GPA

Your GPA or Grade Point Average is the average of your grades. You can calculate your GPA for one semester or for your cumulative, overall GPA.

Example:

Course	Units Attempted	X	Grade (numerical value)	=	Grade Points
Engl 101	4	x	B (3)	=	12
Math 102	4	x	A (4)	=	16
Soc 100	3	x	B (3)	=	9
Polit 100	3	x	C (2)	=	6
Hist 101	3	x	D (1)	=	3
PE/I 108x4	(1)	x	W (0)	=	0
PE/I 105x4	1	x	F (0)	=	0
Totals:	18				46

- Grades are assigned a numerical value: A=4.0, B=3.0, C=2.0, D=1.0, F=0.0
Note: Units attempted that result in P/NP, CR/NC, W, IP, RD or I grades are not used to calculate the GPA.

- Multiply the units attempted by the numerical value of the grade to get the grade points:

$$\begin{array}{rccccccc} & \text{Units Attempted} & & \text{Grade} & & \text{Grade Points} & \\ \text{Example:} & 4 & \times & \text{B (3)} & = & 12 & \end{array}$$

- Total the units attempted and the grade points.
- The GPA is determined by dividing the total grade points by the number of attempted units:

$$\begin{array}{rccccccc} & \text{Grade Points} & & \text{Units Attempted} & & \text{Grade Point Average} & \\ \text{Example:} & 46 & \div & 18 & = & 2.56 & \end{array}$$

Grade Scale:

4.0 = A average

3.0 = B average

2.0 = C average

1.0 = D average

0.0 = F average

Converting Quarter Units to Semester Units

Quarter units are converted to semester units by multiplying the quarter units by 0.667:

$$\text{Example: } 4 \text{ (quarter units)} \times 0.667 = 2.67 \text{ (semester units)}$$

Converting Semester Units to Quarter Units

Semester units are converted to quarter units by multiplying the semester units by 1.5:

$$\text{Example: } 4 \text{ (semester units)} \times 1.5 = 6 \text{ (quarter units)}$$

Incomplete (I)

An incomplete or "I" may be assigned at the discretion of the instructor when a substantial portion of the class work has been completed by the student but some part of the student's work remains to be completed at the end of the term. An "I" may be assigned to a student who, in the judgement of the instructor, is unable to complete a course due to a verified unforeseeable emergency.

The instructor shall complete an Incomplete Grade Submission form which will indicate what the student must do to complete the course and what grade the student will receive if the work is not completed in the time prescribed by this policy. This written record must be given to the student, with a copy on file in the Admissions and Records Office. The Incomplete Grade Submission form may be obtained from the Admissions and Records Office (SSA-212).

The time limit for an "I" grade to be resolved is no later than one (1) year following the end of the term in which it was assigned. A final grade shall be assigned when the work stipulated has been completed and evaluated or after one (1) year following the end of the term in which the "I" was assigned. (SBCCD Administrative Procedure 4232)

The "I" symbol shall not be used in calculating units attempted nor for grade points. Students intending to earn an associate degree from Crafton Hills College must resolve all incomplete grades, whether at Crafton Hills College or any other regionally-accredited institution attended, prior to the end of the term in which the degree will be granted. Students must submit official transcripts to the Admission and Records Office showing the removal of all incomplete grades, replaced with an appropriate letter grade or other evaluative symbol.

Pass/No Pass (P/NP) Formerly Credit/No Credit (CR/NC)

Courses may be offered in either or both of the following categories:

- Courses in which all students are evaluated on a "pass/no pass" basis.
- Courses in which student elects to be graded a "pass/no pass" basis upon registering or by the end of the fourth week of instruction for regular term courses or no later than 30% of a term length for short term courses.

Students electing to be graded on a "pass/no pass" basis are responsible for all assignments and examinations required in the course. The standards of evaluation are identical for all students in the course. A Pass or "P" will be assigned for performance that is equivalent to a letter grade of "C" or better. A student who fails to perform satisfactorily will be assigned a No Pass or "NP."

Students who are assigned a "P" will receive both course credit and unit credit. However, units earned as "P" shall not apply toward fulfilling the requirements of a student's major except (1) if the student earned a "P" in a course and subsequently declares a major in which those units are required or (2) if the student earns a "P" in a course required for a major that is offered only on a "pass/no pass" basis at another college. Students may take up to fifteen (15) units of "pass/no pass" courses to apply toward meeting graduation requirements.

Units earned as "P" or "NP" shall not be included in the determination of the students' grade point average.

After the deadline, the only justification for a change from "pass/no pass" to a letter grade is institutional error or extraordinary circumstances that require approval through the college petition process. (SBCCD Administrative Procedure 4231)

More information, instructions and forms may be obtained in the Admissions and Records Office (SSA-212).

Grade Changes

The instructor of the course shall determine the grade to be awarded. The determination of the student's grade by the instructor is final in the absence of mistake, fraud, bad faith, or incompetency. "Mistake" may include, but is not limited to errors made by an instructor in calculating a student's grade and clerical errors. "Fraud" may include, but is not limited to inaccurate recording or change of grade by any person who gains access to grade records without authorization.

The removal or change of an incorrect grade from a student's record shall only be done pursuant to Education Code 76232 or by an alternate method that ensures that each student shall be afforded an objective and reasonable review of the requested grade change.

If the procedure requires that a student first request a grade change from the instructor, provisions shall be made to allow another faculty member to substitute for the instructor, if the student has filed a discrimination complaint, if the instructor is not available or where the district determines that it is possible that there may have been gross misconduct by the original instructor.

Grades may not be changed for any reason or any circumstances after 36 months from the end of the term in which the grade was assigned.

In case of fraud, bad faith, or incompetency, the final determination concerning removal/change of grade will be made by the College President after consultation with the President of the Academic Senate or his/her designee. (SBCCD Administrative Procedure 4234)

Withdrawal (W)

Students who withdraw or are withdrawn from class(es) after the end of the fourth week, or 30% of a term and before the end of the fourteenth week, or 75% of a term, whichever is less, shall have a "W" posted to their permanent academic record. The "W" symbol shall not be used in calculating grade point averages, but shall be used in determining probation and dismissal.

A "W" shall not be assigned, or if assigned shall be removed, from a student's academic record, if a determination is made that the student withdrew from a course due to discriminatory treatment or due to retaliation for alleging discrimination treatment or that the student withdrew because he/she reasonably believed that remaining in the course would subject him/her to discriminatory treatment/retaliation for alleging discriminatory treatment.

A "W" will not be assigned to any student who withdrew from one or more courses, where such withdrawal was necessary because of the student was engaged in fighting wildfires, was forced to evacuate his/her home due to such fires, or suffered loss or injury as a result of such fires. (T5-55024)

When a student withdraws from a course three times, the student will be referred to counseling to help determine what is causing the need for repeated withdrawals. A fourth withdrawal may be permitted consistent with certain requirements. (SBCCD Administrative Procedure 4233)

Military Withdrawal (MW)

A Military Withdrawal or "MW" shall be assigned to a student who is a member of an active or reserve U.S. military service and who receives orders compelling a withdrawal from courses. Upon verification of such orders, the symbol may be assigned at any time. The "MW" symbol shall not be counted in progress probation or dismissal calculations. (SBCCD Administrative Procedure 4233)

EARNING CREDIT

UNITS OF CREDIT

Academic work at Crafton Hills College is measured in units of credit. In general, to earn one unit of credit, a student attends a lecture class that meets one hour a week; a laboratory class that meets two or three hours a week; or clinic, field, or work experience for five hours a week. An exception to this rule is Credit by Examination.

OPEN ENTRY/OPEN EXIT COURSES

Students completing less than 75% of the work or time required in an open entry/open exit course will be given a grade of "W". Students completing 75% or more of the work or time required will be assigned the grade earned, i.e., "A", "B", "C", "D", "F", "P" or "NP."

UNIT LIMITATIONS

To be considered a full-time student, students must carry a minimum of twelve (12) units. Regular full-time students are restricted to a maximum of eighteen (18) units each semester. During the summer session, students are restricted to one (1) unit for each week of instruction. For example, in the six-week session, a student may carry up to six (6) units. If a student wishes an overload, that is, units in excess of the maximum, he/she must receive approval from a college counselor prior to registering for classes. Contact the Counseling Center for exceptions to this policy.

CLASS LEVEL

Students are classified according to the number of units they have successfully completed. Students who have completed fewer than thirty (30) units are considered freshmen. Students who have completed thirty (30) to sixty (60) are considered sophomores. Students who have completed more than sixty (60) units are classified as special students.

NON-DEGREE APPLICABLE COURSES

Courses numbered 900-999 do not apply toward a degree and are designed to provide the fundamental skills necessary for successful completion of other college courses. These include precollegiate courses in reading, writing, computation, learning skills, and study skills. In accordance with Title 5, Section 55758.5 (b), grades earned in non-degree applicable courses are not included when calculating a student's degree-applicable grade point average.

Students will not receive credit for more than 30 units of basic skills course work taken in the San Bernardino Community College District. Basic skills coursework earned in another community college district will not be counted toward the 30-unit limit.

COURSE REPETITION

Generally students may take a course only once. Students may repeat a course:

1. If the course number includes the notation x2, x3, or x4, then the course may be taken 2, 3, or 4 times, respectively.
2. If the course has been designed as an activity course and where it is found that the course content differs each time it is offered to enhance the skills and proficiencies of the student. These courses may not be repeated more than three (3) semesters. Such courses include, but are not limited to the following:
 - Physical Education courses,
 - Visual and Performing Arts courses in music, fine arts, theatre or dance,
 - Career/Technical courses.

3. If the course is necessary to meet a legally mandated training requirement as a condition of continued paid or volunteer employment.
4. If the student earned a substandard grade ("D", "F" or "NP"), he/she may repeat the course two times in an effort to alleviate the substandard academic work. The most recent grade earned will be computed in the cumulative GPA and the student's academic record so annotated (e.g. previous grade will not count). Students may repeat the course more than two times only upon approval through the college's petition process.
5. If the student earned a standard grade ("A", "B", "C" or "P"), he/she may repeat the course one time only upon approval through the college's petition process. Grades issued under this petition will not be counted in the computation of the GPA.
6. If there has been a significant lapse of time since the student earned credit for the course and another institution of higher education to which the student seeks to transfer has established a recency requirement which the student will not be able to satisfy without repeating the course, the student may repeat the course upon approval through the college's petition process.

Courses in which an incomplete ("I") has been recorded may not be repeated until an evaluative grade has been recorded.

Student permanent records shall reflect all work attempted so that the student's transcript is a true and complete academic record. (SBCCD Administrative Procedure 4225, 4227)

CREDIT BY EXAMINATION

Currently enrolled students who feel that their knowledge is equivalent to the course content of a currently approved course may apply for Credit by Examination. To do so, the following conditions must be met:

- The student must submit evidence of extensive background and/or experience in the subject area to the instructor of the course.
- The student must have completed twelve (12) or more units at Crafton Hills College or be a permanent employee of the San Bernardino Community College District.
- The student must be enrolled in the college during the semester in which the examination is taken, but not enrolled in the course for which the student wishes to earn Credit by Examination.
- The student must have the approval of a full-time instructor in the discipline.

Students may receive Credit by Examination in foreign language courses only in sequence from the lowest to highest level. See a counselor for details.

To apply, the student must submit a fully completed and signed application for Credit by Examination for each course requested to the Office of Instruction (LADM-300). Applications may be obtained in the Admissions and Records Office (SSA-212). In addition to paying the enrollment fee based on the number of units of the course, there is an additional processing fee of \$20 that is applied to all Credit by Examination applications. No financial aid of any kind is available for Credit by Examination (SBCCD Administrative Procedure 4235)

CREDIT FOR MILITARY EXPERIENCE

Students who have served on active duty with the Armed Forces for at least one year are eligible to receive up to seven (7) units of pass "P" grades. Additional credit for military schools and college-level examinations may be earned in accordance with the recommendations of the American Council on Education. See a counselor for details.

ACADEMIC RENEWAL WITHOUT COURSE REPETITION

A student may alleviate certain previous substandard academic performance which is not reflective of his/her present demonstrated abilities through Academic Renewal Without Course Repetition. A student may petition to have any substandard grades for courses taken during two consecutive semesters of attendance eliminated from the computation of the total grade point average, not to exceed a total of thirty (30) units. Students submitting such petitions must have been enrolled and must have completed 24 units of college work at any accredited college with a grade point average of 2.5 or better subsequent to the semester(s) being petitioned. The semester(s) under consideration must have been completed at least two semesters prior to the time of submitting the petition. Neither grades nor courses will be "taken off" the student's record. Instead, courses under consideration will be indicated and annotated accordingly on the student's permanent record. The student's permanent records from other institutions will not be altered. The student may not request for Academic Renewal more than once. (SBCCD Administrative Procedure 4240)

PETITION FOR ACADEMIC EXCEPTIONS

The Academic Exceptions Committee has been established for students who encounter circumstances outside the realm of normal college policy and procedures that affect their educational progress. Petitions or appeals may be addressed to the Academic Exceptions Committee. Instructions and forms for petition may be obtained in the Admissions and Records Office (SSA-212).

PROBATION AND DISMISSAL

Dismissal Standards

For the purposes of this section, semesters shall be considered consecutive on the basis of the student's enrollment in the fall semester followed by the spring semester (e.g., the fall semester of 2009 followed by the fall semester 2010 shall be considered consecutive if the student was not enrolled in the spring semester of 2010).

A student on academic and/or progress probation shall be dismissed for one semester when one or more of the following conditions exists:

- The student has earned a cumulative grade point average of less than 2.0 in all units attempted in each of three consecutive semesters.
- The student has received non-evaluative symbols of “W,” “I,” or “NP” in 50% or more of the units for which he/she was enrolled in each of three consecutive semesters. (SBCCD Administrative Procedure 4250)

Re-Admission

A disqualified student may appeal his/her dismissal by filing a Petition for Academic Exception with the Academic Exceptions Committee. Petitions may be obtained from the Admissions and Records Office (SSA-212).

A student may be reinstated after one semester from the date of disqualification. A student enrolled following dismissal shall be on probationary status and subject to dismissal. If the scholastic achievement of a student readmitted after disqualification continues at a probationary level, the student may be disqualified for one year. (SBCCD Administrative Procedure 4250)

STUDENT LAWS & POLICIES

DISCRIMINATION, HARASSMENT, AND TITLE IX

Title IX

Congress passed Title IX of the Educational Amendment in 1972. Sex discrimination is prohibited in federally assisted education programs. Title IX states: *"No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under, any education program or activity receiving federal financial assistance."*

Crafton Hills College is committed to the achievement of equal educational opportunity. All forms of discrimination and harassment are contrary to basic standards of conduct between individuals and are prohibited by state and federal law, as well as by the San Bernardino Community College District, and will not be tolerated. The college is committed to providing an academic and work environment that respects the dignity of individuals and groups.

Sexual harassment violates state and federal laws as well as District policy and will not be tolerated. Sexual harassment is defined as unwelcome conduct of a sexual nature or based on sex; gender harassment; and harassment based on pregnancy, childbirth or related medical conditions. The definition of sexual harassment includes many forms of offensive behavior, including harassment of a person of the same gender as the harasser.

The college shall be free of other unlawful harassment, including that which is based on any of the following statuses: race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, or sexual orientation of any person, or because he or she is perceived to have one or more of the foregoing characteristics.

Crafton Hills College and the District seek to foster an environment in which all employees and students feel free to report incidents of harassment without fear of retaliation or reprisal. Therefore, retaliation against any individual for filing a complaint of harassment or for participating in a harassment investigation is strictly prohibited. All allegations of retaliation will be swiftly and thoroughly investigated.

Any student or employee who believes that he or she has been harassed or retaliated against in violation of district policy should immediately report such incidents by following the procedures described in SBCCD Administrative Procedure 3430. For additional procedural information, see craftonhills.edu/utilities/contact_us.aspx

AMERICANS WITH DISABILITIES ACT OF 1990 STATEMENT OF POLICY

It is the policy of Crafton Hills College to make its services, facilities, programs, and accommodations accessible to all people, including people with disabilities, and comply fully with the provisions of the Americans with Disabilities Act of 1990.

If a disability prevents you from fully using our facility or enjoying our services and programs, we would like your input and ideas on how we can serve you better.

Any concerns, comments, or suggestions should be directed to the CHC Safety Administrator, at the Administrative Services Office, LADM-165, (909) 389-3211.

FAMILY EDUCATIONAL RIGHTS & PRIVACY ACT (FERPA)

Notification of Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

(1) The right to inspect and review the students' education records within 45 days of the day the University receives a request for access.

A student should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

(2) The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

A student who wishes to ask the College to amend a record should write the College official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed.

If the College decides not to amend the record as requested, the College will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

(3) The right to provide written consent before the College discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

The College discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the San Bernardino Community College District in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the District has contracted as its agent to provide a service instead of using District employees or officials (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the College. Upon request, the College may also disclose education records without consent to officials of another school in which a student seeks or intends to enroll.

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901

Note: FERPA gives parents certain rights with respect to their children's education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level.

Directory Information

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that the San Bernardino Community College District, with certain exceptions, obtain the student's written consent prior to the disclosure of personally identifiable information from his/her education records. Crafton Hills College does not maintain a public directory. However, Crafton Hills College may disclose appropriately

designated “directory information” without written consent, unless the student has advised the College to the contrary in accordance with College procedures. The primary purpose of directory information is to allow Crafton Hills College to include this type of information from the student’s education records in certain school publications. Examples include, but are not limited to:

- A playbill, showing the student’s role in a drama or music production;
- Club membership lists;
- Deans/Honor roll or other recognition lists; and
- Graduation programs.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings, publish yearbooks or graduation photographers. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, with three directory information categories-names, addresses and telephone listings-unless the student has advised the LEA that they do not want their information disclosed without their prior written consent.

Students who do not want Crafton Hills college to disclose directory information from education records without their prior written consent, must notify the Admissions & Records Office in writing by completing the appropriate form (available online or in the Admissions & Records Office.) Crafton Hills College has designated the following information as directory information: **[Note: an LEA may, but does not have to, include all the information listed below.]**

- **Student’s name**
- **Address**
- **Telephone listing**
- **Electronic mail address**
- **Photograph**
- **Date and place of birth**
- **Major field of study**
- **Dates of attendance**
- **Grade level**
- **Degrees, honors, and awards received**
- **The most recent educational agency or institution attended**
- **Student ID number, user ID, or other unique personal identifier used to communicate in electronic systems that cannot be used to access education records without a PIN, password, etc. (A student’s SSN, in whole or in part, cannot be used for this purpose.)**

STUDENT RESPONSIBILITIES, AND RIGHTS

STANDARDS OF STUDENT CONDUCT

(SBCCD Board Policy/Administrative Regulation 5500)

In the Classroom

A proper teaching and learning environment is imperative for getting a good education. Everyone at Crafton Hills College is responsible for helping to create this environment, including students. Simple rules of courtesy apply.

1. **Respect for the Instructor.** This includes arriving on time, not leaving early, bringing appropriate materials, not speaking with other students while the instructor or another student is talking, not bringing food or drink into the classroom, and not being loud, boisterous or argumentative.
2. **Respect for Other Students.** This includes not interfering with the rights of others to listen and participate, being respectful and not using inappropriate language or harassing others in any way.
3. **Academic Honesty.** Lack of honesty in the classroom is considered a very serious offense. Any form of cheating on tests or assignments, turning in work which is not one’s own (i.e. plagiarism), talking during tests, furnishing false information to college personnel, or knowingly misrepresenting oneself to the college are grounds for disciplinary action. The consequences of cheating are severe and may include receiving a grade of “F” for the class and/or possible expulsion from the college.

4. **Instructor's Rights.** An instructor has the right to remove a student from class at any time he or she considers a student's actions to be interfering with a proper collegiate environment. The instructor may also refer the incident to the Vice President of Student Services for disciplinary action as warranted.
5. **Student's Rights.** All students have a right to due process. If a classroom conflict occurs, the student must first discuss the problem with the instructor. If there is no resolution of the conflict, the student should follow the procedures detailed in SBCCD Administrative Regulation 5530.
7. Dishonesty, such as cheating, plagiarism, or knowingly furnishing false information to the college or college officials.
8. Forgery, alteration, or misuse of college documents, records or identification.
9. Violation of SBCCD or college regulations governing student organizations, the use of college facilities, or the time, place and manner of public expression or distribution of materials.
10. Unauthorized entry to facilities or use of college supplies, equipment, and telephones.
11. Possession or use of any firearm, explosive device, dangerous chemical, or other deadly weapon while on SBCCD/college property or SBCCD/college sponsored event.
12. Driving of motorcycles and other off-road vehicles on SBCCD/college property, other than regular roads and parking lots.
13. Persistent, serious misconduct when other means of correction have failed to bring about proper conduct.
14. Obstruction of pedestrian and/or vehicular traffic while on SBCCD/college property or at college-sponsored events.

On the Campus

Creating a proper campus environment is also very important for academic and individual success. The SBCCD Board of Trustees has established District-wide standards of student conduct which will be enforced at all times. These rules of conduct are particularly important in large common areas such as the cafeteria, bookstore, vending areas, campus quads, and other regularly frequented areas.

Students enrolled in the San Bernardino Community College District and campus visitors shall refrain from disruptive conduct which significantly interferes with the instructional program or college activities, or which endangers the health or safety of members of the college, including visitors to the campus. Disruptive conduct on the part of any student or campus visitor shall be cause for disciplinary action in accordance with policies adopted by the San Bernardino Community College Board of Trustees and pursuant to appropriate sections of the Education Code, Section 76034, the Business and Professional Code, the Health and Safety Code and the Penal Code of the State of California. Infractions include but are not limited to:

1. Continued disruptive behavior, willful disobedience, habitual profanity or vulgarity, or the open defiance of authority or persistent abuse of college personnel.
2. Assault, battery or any threat of force or violence upon a student, campus visitor or college personnel.
3. Willful misconduct which results in injury or death to a student, campus visitor, or college personnel; destruction, defacing, or otherwise harming any personal or real property owned by the SBCCD.
4. The use, sale, possession or the presence of anyone under the influence of an illegal substance; possession of any poison classified as such by Schedule D, Section 4160, of the Business and Professional Code.
5. The use or possession of alcoholic beverages on SBCCD property or at any college-sponsored event, or the presence of anyone under the influence of alcohol.
6. Willful or persistent smoking in any areas where smoking has been prohibited by law or by regulation of the SBCCD Board of Trustees.

STUDENT GRIEVANCE PROCEDURE

If you feel you have been treated unfairly, you have a right to complain. To ensure that your grievance receives a reasonable hearing, refer to SBCCD Board Policy/Administrative Regulation 5530. Refer to Administrative Regulation 5540 regarding grade appeals. Consult with the Student Services Office (SSA-306) to start the grievance procedures.

A. Student Grievances (SBCCD Board Policy/Administrative Regulation 5530)

Grievance proceedings may be initiated against a District employee or another student for any of the following reasons:

1. Any act of threat or intimidation;
2. Any act of threat of physical aggression;
3. Any arbitrary action or imposition of sanctions without a proper regard to academic due process as specified in college procedures.

NOTICE:

- a. Grades are not grievable but can be appealed. (see Administrative Regulation 5540).
- b. Sexual harassment complaints are filed in accordance with Administrative Regulation 3430 and are not covered under Student Grievances.
- c. Discrimination complaints are filed in accordance with Administrative Regulation 3430 and are not covered under Student Grievances.

B. Student Grade Appeals (SBCCD Administrative Regulation 5540AP)

According to California Education Code, Section 76224(a), when grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student's grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetence, shall be final. This means that no individual at the college has the authority to change a grade unless persuasive evidence is presented indicating mistake, fraud, bad faith or incompetence on the instructor's part.

Informal Process

All attempts should be made to resolve the grade dispute at the lowest level possible; however, a student may proceed directly to the formal process.

Step 1: If possible, the student first meets with the faculty member who issued the grade; or, if the faculty member is no longer employed or working at the College, the student then meets with the Department Chair or designee to resolve the grade dispute. If resolved and a grade change is indicated, the instructor or designee completes a Grade Change Form.

Step 2: If unresolved in Step 1, the student then meets with the Department Chair or designee. If resolved and a grade change is indicated, a Grade Change Form is completed. If the dispute is not resolved then a formal appeal process can be initiated.

According to code, if mistake, fraud, bad faith, or incompetence is the reason for the grade dispute, the burden of proof lies with the student to produce facts that support this allegation, proceeding then to the formal process. If such evidence exists, the student must complete the Grade Appeal Form and make an appointment to see the Dean.

FORMAL PROCESS

Step 1: The student meets with the Division Dean who will confer with the faculty member and/or Department Chair or designee, to attempt to resolve the grade dispute. If resolved and a grade change is indicated, the faculty member completes a Grade Change Form.

Step 2: Investigation: If the matter is not resolved, the student may submit the issue to the Director of Admissions and Records, in consultation with the Vice President of Instruction and appropriate instructional dean, where a full investigation will be conducted within 30 work days of the Step 2 filing date, and a determination made as to status of the grade dispute. During the investigation the student will be able to present evidence of mistake, fraud, bad faith, or incompetence of the instructor. The instructor will be able to provide evidence to support the grade. If the investigation shows

fraud, bad faith, or incompetence, the investigative report will be provided to the Vice Chancellor of Human Resources for appropriate action. If a mistake has been made and a grade change is indicated, a Grade Change Form is submitted to Admissions and Records.

Step 3: Hearing: If the matter is not satisfactorily resolved and a grade change may be warranted because evidence shows fraud, bad faith, or incompetence, the student may request a formal hearing by the Grade Appeal Committee through the Office of Admissions and Records. The committee shall be comprised of the Vice President of Instruction, 2 faculty members, 2 students and one educational administrator (not of the division where the accused faculty member works). A meeting will be convened within five (5) working days (unless mutually agreed upon to delay). The student and instructor, if still employed, will be expected to attend the hearing. All attempts will be made to contact an instructor who is no longer employed by the college regarding the grade dispute. The Grade Appeal Committee will provide a written decision to the student within five (5) working days of the date of the hearing. The decision of the Grade Appeal Committee is final. If resolved, the Change of Grade Form, the Grade Appeal Form, the written summary of the investigation findings, and the written decision of the Grade Appeal Committee are submitted to Admissions and Records.

C. Time for Filing a Grievance Notice

The appropriate vice president, district manager, or designee will accept a formal written student grievance when submitted within 180 calendar days of the event's occurrence and under the provisions specified. A grievance may be denied if the events occurred more than 180 calendar days prior to the date in which the grievance was filed in writing.

Only registered students may file a student grievance; non-student grievances may be considered by the designated vice president or manager if the grievance is a result of a dispute arising out of the registration or enrollment process, and the grievance is filed within thirty (30) calendar days of the alleged incident.

If more than one student files a grievance against an individual on the same issue or situation, members of the group shall select one person to serve as spokesperson/representative for the entire group.

A copy of all relevant Board Policies and Administrative Regulations can be obtained in the Student Services Office (SSA-306).

STUDENT RIGHT-TO-KNOW

In accordance with the Code of Federal Regulations, Title 34, Part 668, Sections 668.41 through 668.46 (the "Student Right to Know" Act), institutions participating in any Title IV, HEA program shall make available to current and prospective students, and high school counselors, the completion and transfer-out rates of first-time, full-time, degree-seeking students who entered the institution on or after July 1, 1996. Children on Campus and in the Classroom

Please be advised that children are not to be brought into the classroom or left unattended on the campus.

Crafton Hills College staff are well aware of the fact that in most cases children are brought to class or on the campus due to hardship situations. Children left unattended on the campus are exposed to a multitude of dangers due to the construction of the campus (stairs, ledges, etc.) and the terrain. In addition, they are often a distraction to faculty and others and, therefore, disrupt the educational process.

You are asked to please make arrangements for the care of your children. If assistance is needed in this regard, the Counseling Center is able to provide referral information.

Types of Disciplinary Action

Reprimand: Written or verbal notice to the student or campus visitor that continued or repetitive behavior or misconduct will be cause for further disciplinary action.

Probation: Suspension of the privilege to participate in extra-curricular activities and certain other student privileges.

Suspension: Exclusion from the college and college-sponsored activities for a specified period of time.

Expulsion: Exclusion by the SBCCD Board of Trustees from the college and all college-sponsored activities.

Faculty-Initiated Suspension

A faculty member may remove, for good cause, any student from his/her class for up to two (2) class sessions. The

student shall not return to the class during the period of the removal without permission of the instructor. Nothing herein will prevent the college president or designee from recommending further discipline in accordance with these procedures based on facts that led to the removal. As used in this rule, "good cause" includes those offenses listed in the Student Code of Conduct. The faculty member is not obliged to provide makeup opportunities for class work missed during the two (2) class sessions of suspension.

ACADEMIC FREEDOM

The San Bernardino Community College District is committed to the principle that the free expression of ideas is essential to the education of its students and to the effective governance of its colleges. The District further subscribes to the principle that the free expression of ideas should be limited only by the responsibility to express ideas with fairness, and in a manner that respects the differing ideas of others and distinguishes between established fact and theories and one's own opinion.

No special limitations shall be placed upon study, investigation, presentation, and interpretation of facts and ideas concerning human society, the physical and biological world, and other branches of learning, subject to accepted standards of professional responsibility. Students shall have the opportunity to study controversial issues and divergent views, and to arrive at their own conclusions. Academic employees have an obligation to protect the student's right to freedom of inquiry even when the student's conclusions differ from those of the academic employees. While students may represent without penalty any opinion in or out of class, they may be required to demonstrate knowledge of views contrary to their own in order to fulfill course requirements. (SBCCD Board Policy/Administrative Regulation 4030)

STUDENT INTEGRITY POLICY

(adopted by the CHC academic Senate April 12, 2008)

General Principal

At Crafton Hills College individuals access educational opportunities in order to develop their unique potential. The College helps students prepare to meet the challenges of an increasingly complex society and to become part of an informed and engaged citizenry. An essential feature of this process is that the individual student complete assigned work and that there be valid assessment of the student's accomplishments.

Instructors in every class have a right to assume that all examinations, quizzes, assignments, and other gradable work done by the student is that particular student's own individual production, and has not benefited from unauthorized assistance from other sources.

Special Applications

The presumption would be that, in **written** assignments, students are not permitted to use another person's words without attribution. Specifically, plagiarizing the words of another writer (whether from a book, article, broadcast, internet, or another student) is not permitted.

The presumption would be that, in **quantitative** assignments (such as accounting exercises, math homework or science lab reports), each student has independently derived his/her own data, made his/her own calculations, checked those figures, and come up with his/her own interpretations of those results.

The presumption would be that, in **quizzes** and **examinations**, each student has not received unauthorized help from another person, and in the case of closed-book test, no notes, books or electronic devices or electronic communication from other sources has been used.

Students must take all **examinations** given in the courses in which they are enrolled, and may not be excused from the required examinations of any course, including final examinations. Students who are absent during an examination forfeit the right to make up the examination unless they have prior permission from the instructor.

Final examination hours and dates are published in the schedule of classes. Final examinations for short-term classes are given during the last class meeting.

The established final examination schedule cannot be changed without approval from the Vice President of Instruction.

When an infraction involves unauthorized copying from or collaborating with another student in the class, all students participating are to be held guilty of the infraction. "I was just helping him/her by giving him/her the right answers" is not a defense.

Incidences where student behavior does not adhere to these presumptions constitutes academic dishonesty.

Announcement of Policy

The College shall announce its general academic honesty policy in the widest possible fashion: website, catalog, schedule of classes, student handbook, etc.

It is the duty of every instructor to announce special modifications and interpretations of that policy. For example, instructors may wish to permit group activities in class, open note exams, team projects, or out-of-class consultation on homework to check calculations or writing. The expectations of the proper use of tutors and study partners must also be clarified by individual instructors and/or programs.

The faculty based modifications and interpretations of acceptable academic honesty must be communicated to students by some written format, such as the course syllabus, FAQ file, instructions on assignments, or other course documents or program documents. These documents should strive for specificity as to what constitutes an infraction and which sanctions shall be applied.

Reporting

Faculty members are obligated to report incidences of infraction to the Vice President of Student Services. These reports should include the name of the student, course, instructor, assignment, nature and date of the infraction, and the sanction applied.

Infractions and Sanctions

When a faculty member has a reasonable suspicion of a student's lapse of academic integrity (based upon direct observation, witness(es), or documentary evidence) that faculty member must

1. determine if the evidence is sufficient to warrant a finding of infraction;
2. determine if further investigation is required;
3. apply an appropriate sanction: This is to be at the discretion of the faculty member and can range from a warning to a reduced grade for the assignment, with attendant consequences.

The disciplinary actions are consistent with Board Policy 5500, which lists cheating and plagiarism as behavior that subjects a student to such discipline. Administrative Regulation 5500 details a range of possible disciplinary actions: reprimand, probation, suspension, expulsion and specific steps to follow in cases of suspension or expulsion.

In particular career-technical programs, the definitions and disciplinary procedures for academically dishonest or professionally unethical behavior are also governed by an external authority. The standards and processes established for students in these programs are different than those described in this document. Students in these programs will receive notification of these requirements upon admission to the program. Instructors in these programs are still obliged to report incidences of infraction to the Vice President of Student Services.

The criterion for an appropriate sanction is that the sanction match the guidelines published (by the instructor, program, department, College, District, etc.) prior to the infraction.

In general, the sanction applied at the discretion of the instructor will be the maximum penalty imposed upon the student (s) violating the standards. However, in consultation with the instructor, the additional sanctions of suspension or expulsion may be applied by the Vice-President of Student Services in cases where

1. there are repeated infractions by the same student;
2. the help from the other student was gained through coercion or duress;
3. another student's work was accessed without the permission of that student;
4. the violator has threatened a witness or faculty member not to bring forth evidence in this case.

Appeal

Students accused of academic dishonesty have a right to appeal the findings of the instructor, but the burden of proof will be on the student. The appeal will be made to the office of the Vice President of Student Services, who will arrange for the case to be heard by a panel. The appeals panel will be composed of three faculty members, one college administrator, and one student (selected by the Student Senate). If a simple majority of the panel vindicates the student, then the complaining faculty member's sanction will not apply. A simple majority of this panel can sustain the finding that the student was guilty of violating the academic honesty policy of this course, and therefore, the sanction applied by the complaining faculty member will apply. Additionally, a simple majority of the panel may determine that institutional sanctions do apply against the student.

STUDENT RIGHTS AND RESPONSIBILITIES

Preamble

Crafton Hills College exists for the transmission of knowledge, the pursuit of knowledge and creative expression, the development of students, and the general well being of our community and society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of this learning community, students are encouraged to develop the capacity for critical judgement and to engage in an independent and sustained search for knowledge and creativity.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. 7. Publications

Student publications serve to inform, instruct, influence, and entertain the campus community and are governed by SBCCD board policy. The Associated Students and the Director of Student Life have the responsibility to define the role of student publications, and set the standards. In doing so, they shall seek to strike a reasonable balance between academic and editorial freedom and the highest ethics of responsible journalism, avoiding libel, undocumented allegations, attacks on personal integrity, harassment, and innuendo. All publications must state that the opinions expressed are not necessarily those of the college or the student body.

8. Confidentiality

Students have the right to have their academic records treated in a confidential and responsible manner with due regard given to the personal nature of the information contained therein. Students' records will be released only with their written authorization or as provided by the Family Educational Rights to Privacy Act and other applicable laws.

As such, all users should not have any expectation of privacy in anything they create, send, or receive via computer or telephone.

Every SBCCD computer user is responsible for being aware of these guidelines and is expected to follow these policies, both in letter and in spirit. - If you believe someone else is using your ID, contact the system administrator immediately.

Privacy Interests

The District recognizes the privacy interests of faculty, staff and students and their rights to freedom of speech, collegial consultation, and academic freedom. However, both the nature of electronic communication and the public character of District business make electronic communication less private than many users anticipate and may be subject to public disclosure. In addition, the District network can be subject to authorized and unauthorized access by both internal and external users. For these reasons, there are virtually no online activities or services that guarantee an absolute right privacy, and therefore the District network is not to be relied upon as confidential or private.

No students shall install software on any District computers, except as authorized by the instructor in the course of learning.

Fair Use

Information appearing on the internet should be regarded as copyright protected, whether or not it is expressly noted as such. Section 107 of the Copyright law (Title 17, U.S. Code) allows for Fair Use of copyrighted materials. FINANCIAL AID, GRANTS AND WORK STUDY

The Financial Aid Office helps students seeking financial aid to pay for the costs of attending Crafton Hills College. Money is provided to cover the cost of enrollment fees, books, transportation and partial living expenses. Students may be working and still qualify for financial assistance. The basic two type of financial aid: grants and self help (such as work study). Grants are awarded on the basis of financial need and do not require repayment. Work study offers students the opportunity to earn a portion of their college expenses through part-time employment during the school year.

The Free Application for Federal Student Aid (FAFSA) must be used when applying for financial aid. Applying on time is critical. Be sure to contact the Financial Aid Office regarding deadlines. The completed FAFSA should be done online at www.fafsa.ed.gov after January 1, but no later than the last day of the previous spring semester, in order to ensure funds will be available for the beginning of the fall semester in August. Our school code is 009272. After submitting you FAFSA on-line, you must come into the financial aid office approximately 4 days later to open your file in the financial aid office regardless if you are a new student or a returning student, everyone must open a new file each year. It is important, however, that all requested documentation be returned

as soon as possible. Financial aid awards are made only after a student's file is complete. On-time applicants (those who have complete applications by June 01, 2011 and who have returned all requested materials) can expect to receive a financial aid award letter by July. Students receiving financial aid are expected to make satisfactory academic progress toward their educational goal. This includes completing all classes for which aid is received. The Financial Aid staff is here to assist you. Students often find applying for financial aid a difficult and confusing process. Those needing help or advice are encouraged to go to the Financial Aid Office. See pages for more information.

GRADUATION REQUIREMENTS

Students have several options for choosing a degree at CHC. For those wishing to complete their college experience at Crafton, there are discipline-specific and multidisciplinary degrees which build competency in a particular field. Students who choose these degree options will need to fulfill CHC's general education requirements. For students who plan to transfer, particular courses need to be completed to meet the four-year college's requirements. Both the CSUs and UCs have their own sets of general education requirements, which are described in their respective sections. Major preparation courses also differ depending on the college and the program. The CSUs now guarantee admission to students who complete an Associate Degree for Transfer and CHC is offering three of these options beginning in the 2011-2012 academic year. Students are strongly advised to see a counselor to assure the courses they take will apply to their chosen path.

Degrees

The Board of Trustees, upon recommendation of the President and faculty of the college, is authorized to confer the Associate of Arts degree and the Associate of Science degree. The requirements for graduation with either degree represent both minimum state requirements and the firm commitment of Crafton Hills College to the principles of general education. Requirements are designed to develop the full potential of each student, broaden his or her outlook and provide the basis for exemplary citizenship.

Students planning to transfer to a four-year university are cautioned that this degree may not meet all of the lower division requirements for transfer into a particular major; however, through careful educational planning with a counselor, this degree would offer a solid foundation in the transfer process. Students should consult with a counselor for specific information regarding their intended major at the university of their choice.

ASSOCIATE OF SCIENCE HEALTH SCIENCES DEGREE

The Associate of Science Health Sciences degree allows students to explore many aspects of science and health related studies. This degree prepares students for health care professional programs including nursing, dental hygiene and other health professional programs.

To complete the requirements for the Associate of Science for this degree, a student must:

1. Complete the requirements for an associate degree (see requirements 1 through 8 on page 49).
2. Complete thirty (30) units with a "C" (2.0) or better in each of the following required courses.
3. Complete enough elective units totaling the required balance of 60 total units.

This major sequence includes prerequisite courses common to many nursing, dental hygiene and other health professional programs. However, admissions requirements do vary from program to program. Prospective students should consult a counselor or the program to which they are applying for specific admissions requirements.

TRANSFER PROGRAMS - GENERAL INFORMATION

Each four year college or university has its own admissions standards. In addition, each determines which courses will be accepted to satisfy General Education, Major or elective requirements. Further, these requirements are subject to periodic change.

Students who plan to transfer to a four-year college or university should obtain a copy of the current catalog of that institution. Read it carefully and see a counselor to discuss appropriate courses to complete at Crafton Hills College prior to transfer.

Fortunately, the similarities between transfer programs are far greater than the differences. Read the information on the following pages to ensure a smooth, successful transfer.

COMPLETING A TRANSFER PROGRAM

The freshman and sophomore years of a college or university program may be completed at Crafton Hills College. Transfer students may choose one of three systems:

- California State University System (23 campuses)
- University of California System (9 campuses)
- Private or Out-of-State Colleges and Universities

In order to transfer to the college or university of your choice, it is necessary to complete the following:

1. General Education or Breadth Requirements

These are the courses required of every transfer student regardless of major. General Education requirements are determined by the college or university the transfer student has chosen. Listed below are plans for transfer to the California State University System and the University of California System, and some information about transferring to a private or out-of-state institution.

A. California State University (CSU) General Education Requirements. See pages 73 and 74 of this catalog.

This plan applies to all 23 CSU campuses. In order to receive full certification and not be held to additional courses at the transfer university, students must complete at least 39 units of General Education in specific areas. When you have completed your General Education classes and all your grades have been reported, see a counselor for certification. Areas A1, A2, A3 and B4 must be completed with a "C" or better grade prior to transfer.

B. Intersegmental General Education Transfer Curriculum (IGETC). See pages 69 and 70 of this catalog.

This plan applies to both the CSU and UC systems. However, some schools and majors within the UC system DO NOT accept the IGETC plan.

Also, students in Engineering, Science, Math or other high-unit majors are advised not to use IGETC. See a counselor for information. A minimum of 37 units of General Education with at least a "C" in each course is required to complete the IGETC. When you have completed your General Education classes and all your grades have been reported, see a counselor for certification.

C. Private or Out-of-State Colleges General Education Requirements

Students should obtain a current college catalog for the Private or out-of-state school of interest. It is important to read the catalog carefully and then see a counselor to plan a transfer program.

The counseling office has specific transfer requirements for programs at Loma Linda University and approved General Education requirement lists for several private colleges, including Biola University, California Lutheran College, University of Redlands and the University of Southern California (USC). Some Private schools allow the use of the Intersegmental General Education Transfer Curriculum (IGETC) and/or the California State University General Education Requirements (CSUGE) to meet lower division General Education requirements. Check with the transfer school for details.

2. Lower Division Courses for a Major

These courses provide the background and preparation needed to enter a college or university at the junior level. Crafton Hills College has articulated lower division major requirements with CSU San Bernardino, UC Riverside and many other CSU and UC schools. Information for a college's lower division major requirements is available at www.assist.org via the Internet. See a counselor for assistance.

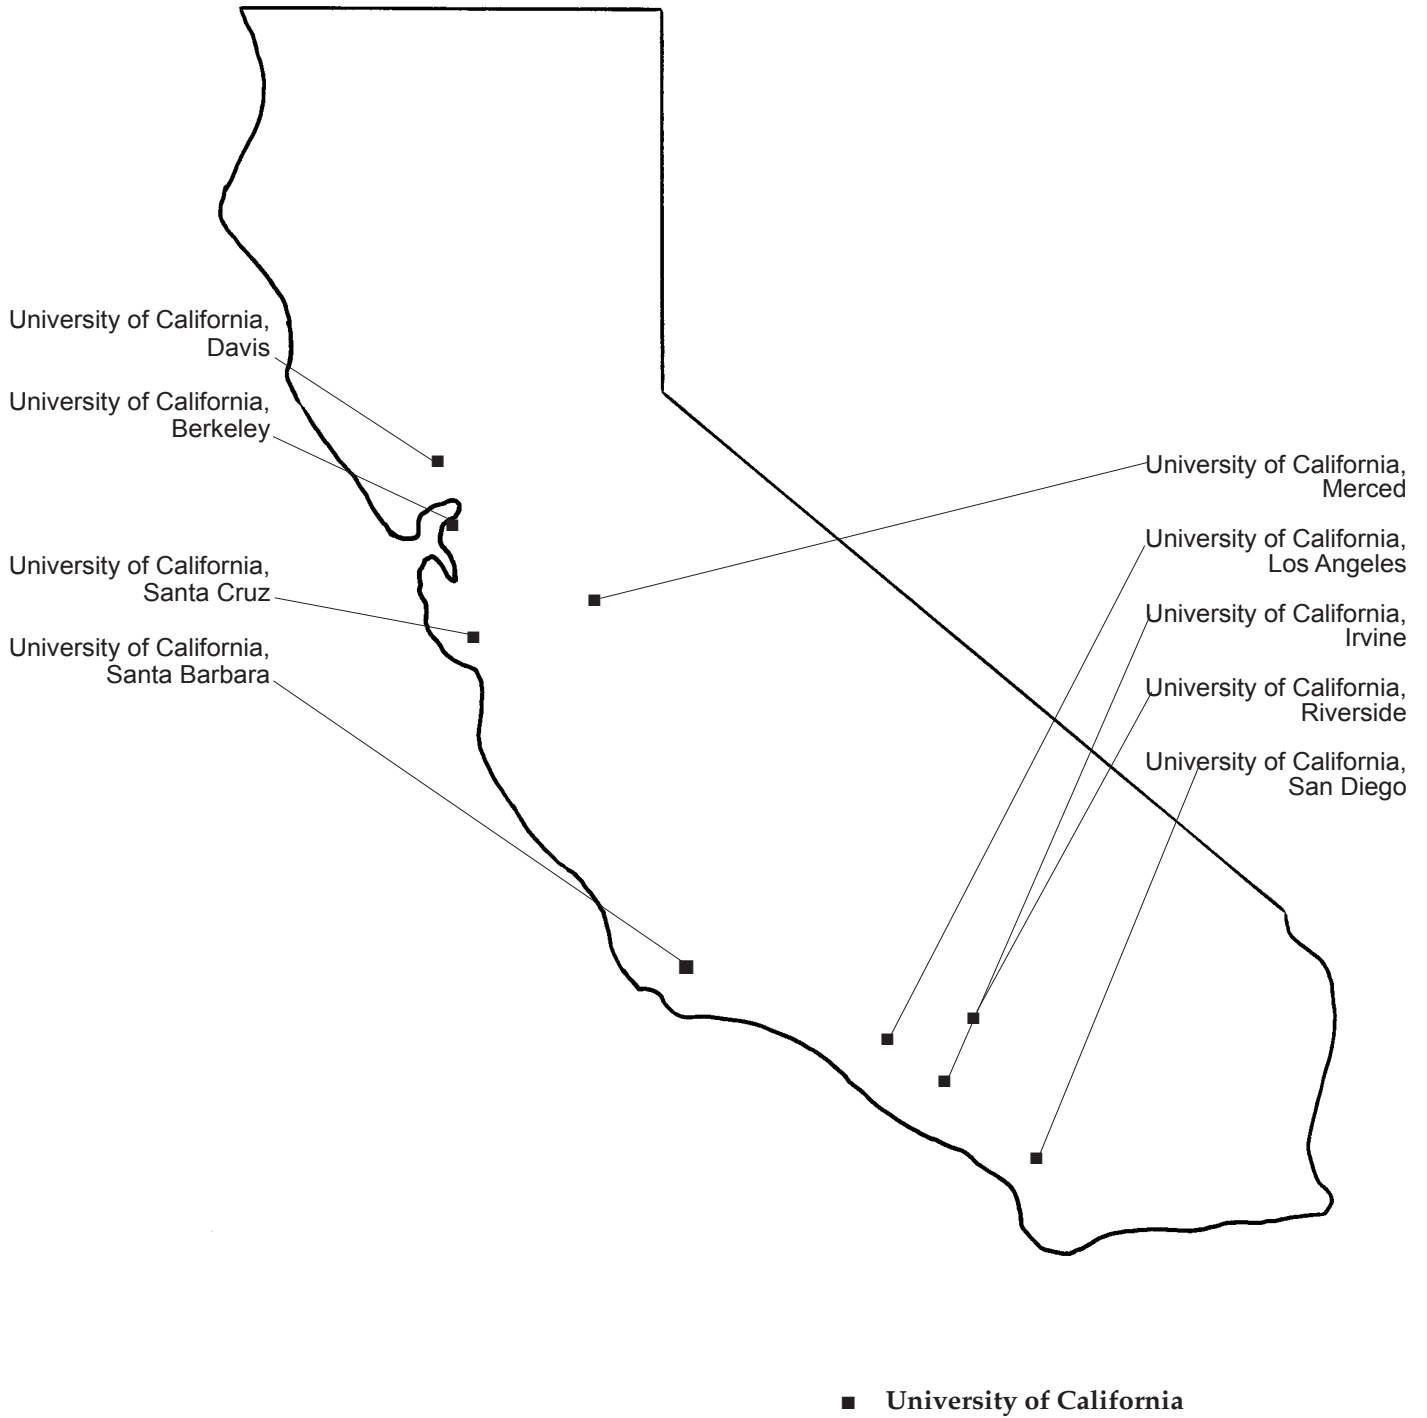

3. Electives

These are courses of choice that are taken to fill in the areas not covered by General Education or major requirements. Students must take enough "elective" courses to meet the minimum number of units required for transfer. All CSU and UC campuses require a minimum of sixty (60) transferable units in order to be eligible to transfer. Private schools vary widely regarding the number of units required for transfer.

4. Acceptable Grade Point Average

The CSU system requires at least a 2.0 GPA, while the UC system requires at least a 2.4 GPA. However, these figures are minimum GPA requirements! Many colleges and universities and impacted majors within some colleges expect higher grade point averages for admission. Non-residents of California must have at least a 2.4 GPA to apply to a CSU. A GPA of at least 2.8 is required to apply to a UC.

THE UNIVERSITY OF CALIFORNIA CAMPUSES

The University of California Campuses

The University of California has nine campuses; Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, Santa Barbara, and Santa Cruz. All except Berkeley and Merced are on a quarter system. While all campuses have similar general lower division requirements and will accept a maximum of seventy semester units of transfer work, there are some significant differences among them.

MINIMUM ADMISSION REQUIREMENTS FOR TRANSFER APPLICANTS

A transfer applicant, according to the University, is a student who has enrolled in a regular session at another college or university after high school. A student who meets this definition cannot disregard his or her college record and apply as a freshman.

CALIFORNIA RESIDENTS

To qualify for admission to the University as a transfer stu-

dent, a student must meet one of the three sets of requirements described below. The pathway the student follows depends upon whether he/she was eligible for admission to the University when he/she graduated from high school.

California residents must have at least a "C" (2.0) average in all transferable college coursework. The Subject, Scholarship and Examination Requirements referred to below can be explained by a counselor.

1. Students who were eligible for admission to the University when they graduated from high school -- meaning they satisfied the Subject, Scholarship and Examination Requirements -- are eligible to transfer if they have a "C" (2.0) average in transferable coursework.
2. Students who met the Scholarship Requirement but not the Subject Requirement must take transferable college courses in the missing subjects, earn a "C" or better in each required course and have an overall 2.00 GPA in all transferable coursework to be eligible to transfer.
3. Students who wish to transfer to the university at the junior level must fulfill both of the following criteria:
 - a. Complete 60 semester units of transferable college credit with a grade point average of at least 2.4 (no more than 14 semester units may be taken Credit/No Credit) and,
 - b. Complete the following seven course pattern, earning a grade of "C" or better in each course:
 - Two transferable college courses (3 semester or 4-5 quarter units each) in English composition; and
 - One transferable college course (3 semester or 4-5 quarter units) in mathematical concepts and quantitative reasoning; and
 - Four transferable college courses (3 semester or 4-5 quarter units each) chosen from at least two of the following subject areas: the arts and humanities, the social and behavioral sciences and the physical and biological sciences.
 - (Students who satisfy the Intersegmental General Education Transfer Curriculum (IGETC) prior to transferring to UC will satisfy Option 3b above of the transfer admission requirements.) Visit www.assist.org for a list of UC-transferable courses at Crafton Hills College.

NONRESIDENTS

The minimum admission requirements for nonresident transfer applicants are the same as those for residents, except that non-residents must have a grade point average of 2.8 or higher in all transferable college coursework.

Completion and certification of IGETC will permit community college students to transfer to a campus in the CSU or UC system with lower division requirements completed. **COURSES IN BOLD PRINT ARE RETROACTIVELY APPROVED FOR FALL 2010 AND THEREAFTER.**

IGETC is not advisable for all transfer students. Students with majors that require extensive lower division preparation may be best served by taking courses that fulfill the General Education Breadth of the UC campus. These majors include, but are not limited to, Engineering, Pre-professional programs, and Science.

CERTIFICATION: Request **CERTIFICATION** from the Counseling Office. Current IGETC standards allow for full or partial certification. **Partial certification** is defined as completing all but two courses from any area **except those listed in Areas 1 and 2.** Minimum UC and/or CSU transfer requirements must be met prior to transfer. All courses must be completed with a "C" or better. IGETC may be certified by any Community College the student has attended.

INSTRUCTION TO COUNSELORS: Circle courses and enter units in appropriate column. **Requirements satisfied by exam should be noted.**

I. TRANSFER ADMISSION REQUIREMENTS

A student is eligible for upper division transfer if the following requirements have been met:

1. At least sixty (60) semester units of transferable college courses have been completed with a grade point average of 2.00 or better. Non-residents of California must have a 2.40 or better grade point average.
2. At least thirty (30) units of the 60 units required for transfer **must** be selected from the general education courses in areas A through E. Each of the courses within these 30 units must be completed with a grade of 'C' or better. Additionally, at least one course from EACH of the following areas must be completed with a grade of 'C' or better **prior to transfer**:

Area A1	Oral Communication
Area A2	Written Communication
Area A3	Critical Thinking
Area B4	Mathematics/Quantitative Reasoning

3. The student is in good standing (i.e., eligible to re-enroll) at the last college or university attended.

II. IMPACTED PROGRAMS:

The CSU designates programs as impacted when more applications are received in the first month of the filing period than can be accommodated. Some majors are impacted at every campus where they are offered; others may be impacted only at some campuses. **Applicants to impacted majors must file the application for admission during the first month of the filing period and will be subject to supplementary admission criteria.** If you apply by mail, the postmark will be used to determine if you filed in the first month. Priority for admission to impacted programs is given to California residents.

III. LOWER DIVISION MAJOR REQUIREMENTS

Most majors require that you complete certain preparatory courses in your first two years of college. This can normally be accomplished at Crafton Hills College. Consult the catalog for the college of your choice to determine regulations governing the completion of lower division major requirements and related restrictions. Refer to ASSIST (www.assist.org) for information about lower division major requirements, and consult with a counselor regarding transfer plans!

IV. APPLICATION FILING PERIODS

You are urged to file early! Applications to impacted majors must be filed during the initial filing period, which is the **first month** of the filing period. If applying after the initial filing period, check www.csumentor.edu for current information. Except for impacted majors, campuses accept applications until enrollment categories are filled. Most campuses will acknowledge receiving your application within two to four weeks. **You may apply online at www.csumentor.edu.**

Fall Semester or Quarter 2012	October 1, 2011

A.A.-T AND A.S.-T DEGREE GENERAL INFORMATION

The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer”, a newly established variation of the associate degrees traditionally offered at a California community college. The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. In order to earn one of these degrees, students must complete a minimum of 60 required semester units of CSU-transferable coursework with a minimum GPA of 2.0. Students transferring to a CSU campus that does accept the AA-T or AS-T will be required to complete no more than 60 semester units after transfer to earn a bachelor’s degree (unless the major is a designated “high-unit” major). **This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.**

The following are required for all AA-T and AS-T degrees:

1. Completion of a minimum of 60 CSU-transferable semester units.
2. Minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. (While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.)
3. Completion of a minimum of 18 semester units with a “C” or better (or a “P” if the course is taken on a “pass-no pass basis”) in all courses required as a part of a AA-T or AS-T major as identified by the college catalog. (Title 5-55063)
4. Certified completion of the California State University General Education-Breadth pattern (CSU GE Breadth) OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern general education requirements. (See pages to follow in the catalog for more information.)

ASSOCIATE OF ARTS-TRANSFER DEGREES

1. Completion of the requirements for an associate degree for transfer (see requirements 1 through 4 above).
2. Completion of a minimum of eighteen (18) units with at least a “C” or better in each course in one of the following associate degree for transfer programs. (Refer to the particular discipline for course descriptions and requirements for each major.)

Levels and Order of Mathematics Classes

The ability to think and reason using mathematical concepts is an essential skill. There are several starting points for you to enter at the right level. Starting at the right class will let you move successfully from class to class and to get to the point you need in the shortest amount of time. Start with the assessment test in the Counseling Center. Based on your eligibility determined on the assessment, choose the statement that best describes you, meet with a counselor to discuss the path and to be sure all prerequisites are cleared and follow that path. A counselor can also show you a sheet with the skills needed for each class and help you interpret the assessment scores. They also have a more detailed sheet explaining the differences between MATH 102, 108 and 115.

After taking 095 or 095C I can choose from the following transferable courses listed below, depending upon my degree goals.
