<p>Dual Enrollment permits High School students to take College courses at their high school campus as part of their regular school day (generally period 1-6). High School students are not charged the College Enrollment fees and typically receive both High School and College credit for the course.</p> <p>Concurrent Enrollment High School students are eligible to enroll in MSJC courses for which they have been approved as a result of completing and submitting an approved School/Parent Agreement (SPA) form. These courses take place outside the traditional high school day (online, evenings, or weekends).</p>
